

Super Natural Intensive: Spiritual Warfare

This class will explore spiritual warfare through the eyes of the Old Testament, New Testament, and contemporary issues. We will examine geopolitical conflicts in the world as it relates to angelic and demonic influences. A careful examination of Genesis, Isaiah, Ezekiel, and Daniel as well as the gospels and the epistles will shed light on the origin of Satan and his kingdom, the intentions of that kingdom, and how to effectively deal with the demonic. Most importantly, we will discover Christ's and the church's role as it pertains to the victory over the work of darkness. *This Present Darkness* by Frank Peretti will serve as one of our texts that places spiritual warfare in literary form. The Bible will be our main text. Note, *The Confession of A Baptist Preacher* which isn't required reading, is a powerful resource to overcome the attacks of satan in your personal life. In addition, we will look at specific Gifts of the Spirit that correlates with the unseen realm.
